

When Would Cloning an Order be Beneficial?

- Ordering a Final Inspection for a previous order.
- Ordering a 216 Operating Income Statement or 1007 Rent Schedule that was not originally ordered with original order.
- Ordering an appraisal for multiple lots for the same borrower.

**Please keep in mind that cloning an order is only feasible with an order that has already been placed through VMG. Please ensure that all fields in the cloned order, including the Report Type, are correct and note any changes, if needed.*
