

A special request to my family, friends and clients,

I'm writing to ask for your support in a very special cause.

At the age of 16, my daughter Natalie was diagnosed with Type I Diabetes (Juvenile). She is now 33 and due to her disease, we have almost lost her twice. It is a daily challenge for her to balance her food, exercise and insulin. My hope is to find a CURE for Natalie and all others living with this disease.

All of us at Valuation Management Group are getting ready for the Juvenile Diabetes Research Foundation's Walk to Cure Diabetes on Saturday, Oct. 19. Along with a half-million others nationwide, we raised over \$110 million in 2012 to fund research for better treatments and a cure for type 1 diabetes and its complications.

I'm asking you to help support our fundraising efforts with a donation. Our company goal this year is \$17,100. Valuation Management Group is matching a portion of all donations made in the month of October. Your tax-deductible gift will help make a difference in the lives of people with type 1 diabetes.

It is faster and easier than ever to donate. Simply [click here](#) for the VMG team page, find walker **Natalie Thompson** and then select "donate to this walker" to donate online.

Any amount, great or small, helps JDRF get closer to its goal of finding better treatments and a cure for type 1 diabetes. I greatly appreciate your support and will keep you posted on my progress.

Sincerely,

Vicky Thompson

About JDRF:

JDRF is the worldwide leader in funding research to find better treatments and a cure for type 1 diabetes, an autoimmune disease that strikes children and adults suddenly and lasts a lifetime. It sets the global agenda for type 1 diabetes research, and is the largest charitable funder of and advocate for diabetes science worldwide. To date, JDRF has funded more than \$1.5 billion in diabetes research, including nearly \$107 million in fiscal year 2010.
